Kinetic Sand

Type of Project

Intervention

Summary

Kinetic Sand is a building toy made of 98% sand and 2% silicone oil. It can be molded, it sticks to itself but not to most other materials or surfaces, and it does not dry out. Playing with Kinetic Sand gives a moment of relaxation for both young and old.

"Kinetic Sand" is the registered trademark of WABA Fun LLC.

Low-tech, high-tech products, services and contexts for play

It is a fun experience for all children ages 3 and up.

"Kinetic Sand" is the registered trademark of WABA Fun LLC.
