HelpKidzLaern

Type of Project

Intervention

Summary

80+ Games & Activities that can be accessed using mouse and keyboard, switch(es), touch screen, interactive classroom displays, joy stick, roller ball and eye gaze.

Ideal for children with a wide range of special educational needs and learning difficulties at a pre-literacy or early literacy level. It is also suitable for early years users.

We use HelpKidzLearn a lot at Beit Issie Shapiro, and the kids LOVE those game, and we can really see the joy on the faces because they can play by them self!
